PROFILE

Dedicated and ambitious IT student with strong foundation and a practice approach to personal and professional growth seeking opportunities to contribute my skills and passion to a reputed company, where I can learn and develop while making contributions.

PROJECTS

Job-portal

[Github](#)

React js, Node js, Express js, Mongodb, JWT, TailwindCSS

- Developed a full-stack job portal with user authentication, role-based access (Recruiter/User), and secure JWT login system.
- Implemented separate dashboards for recruiters and job seekers to manage job postings and applications.
- Designed responsive UI using Tailwind CSS for seamless experience across devices.
- Integrated MongoDB for persistent storage of user profiles, job listings, and applications.

Routine-Master

[Github](#)

React js, Node js, Express js, Mongodb, JWT, TailwindCSS

- Developed a full-stack productivity application enabling users to create and manage daily routines, add tasks/goals, update status, write diary entries, and track daily/weekly progress.
- Implemented secure user authentication and authorization using JWT, ensuring data privacy and personalized user sessions.
- Integrated features such as alarm scheduling, goal tracking, and progress visualization to enhance user engagement and time management efficiency.
